**BASIC
FINANCIAL STATEMENTS**

INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners
Key Largo Fire Rescue and Emergency Medical Services District
Monroe County, Florida

We have audited the accompanying financial statements of governmental activities and each major fund of Key Largo Fire Rescue and Emergency Medical Services District (the "District") as of and for the year ended September 30, 2010, which collectively comprise the District's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, and each major fund of the Key Largo Fire Rescue and Emergency Medical Services District as of September 30, 2010, and the change in its financial position and budgetary comparison for the General Fund and the Vehicle and Equipment Replacement Fund for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2011, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Key Largo Fire Rescue and Emergency Medical Services District

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**KEY LARGO FIRE RESCUE AND EMERGENCY
MEDICAL SERVICES DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
September 30, 2010**

Our discussion and analysis of Key Largo Fire Rescue and Emergency Medical Services District's (the District) financial performance provides an overview of the District's financial activities for the year ended September 30, 2010 and 2009. Please read it in conjunction with the District's basic financial statements, which immediately follow this discussion.

FINANCIAL HIGHLIGHTS

The following are the highlights of financial activity for the year ended September 30, 2010:

- The District's total assets exceeded its liabilities at September 30, 2010 by \$ 6,721,573.
- The District's total revenues were \$ 2,179,153, \$ 2,100,799 from ad valorem taxes, \$ 36,709 from capital grants, and \$ 41,645 from interest income. The District's expenses for the year were \$ 2,232,308.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements, which consist of the following two statements, are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business.

The statement of net assets presents information on all the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net assets changed during the year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements can be found on pages 7 and 8 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has only one fund type: governmental funds.

**KEY LARGO FIRE RESCUE AND EMERGENCY
MEDICAL SERVICES DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
September 30, 2010**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the statement of revenues, expenditures and change in fund balance provide reconciliations, if applicable, to facilitate this comparison between governmental funds and governmental activities.

The governmental fund financial statements can be found on pages 9 through 14 of this report.

Notes to Basic Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to basic financial statements can be found on pages 15 through 21 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of financial position. The following table reflects the condensed government-wide statement of net assets as of September 30, 2010 and 2009:

Key Largo Fire Rescue and Emergency Medical Services District
Statement of Net Assets

	2010	2009
Current and other assets	\$ 2,794,371	\$ 2,635,737
Capital assets	4,117,172	4,326,053
Total assets	6,911,543	6,961,790
Curent liabilities	189,970	187,062
Total liabilities	189,970	187,062
Net assets:		
Invested in capital assets, net of related debt	4,119,672	4,326,053
Unrestricted	2,601,901	2,448,675
Total net assets	\$ 6,721,573	\$ 6,774,728

**KEY LARGO FIRE RESCUE AND EMERGENCY
MEDICAL SERVICES DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
September 30, 2010**

Governmental Activities

Governmental activities for the year ended September 30, 2010 decreased the District's net assets by \$ 53,155, as reflected in the table below:

Key Largo Fire Rescue and Emergency Medical Services District
Statement of Activities

	<u>2010</u>	<u>2009</u>
REVENUES:		
Program revenue:		
Capital grants and contributions	\$ 36,709	\$ 131,932

Public safety	<u>1,989,448</u>	<u>2,033,344</u>
	<u>2,232,308</u>	<u>2,370,160</u>
Change in net assets	(53,155)	475,124
NET ASSETS, BEGINNING OF YEAR	<u>6,774,728</u>	<u>6,299,604</u>
NET ASSETS, END OF YEAR	<u>\$ 6,721,573</u>	<u>\$ 6,774,728</u>

ANALYSIS OF THE GOVERNMENTAL FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the District's governmental fund is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a District's net resources available for spending at the end of the fiscal year. As of the end of the year, the District's governmental fund reported an ending fund balance of \$ 2,601,901.

CAPITAL ASSETS

The District's investment in capital assets, less accumulated depreciation, for its governmental activities as of September 30, 2010 amounted to \$ 4,119,672, and consists of construction in progress, buildings and improvements, infrastructure, furniture and equipment and vehicles.

**KEY LARGO FIRE RESCUE AND EMERGENCY
MEDICAL SERVICES DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
September 30, 2010**

GENERAL FUND BUDGETARY HIGHLIGHTS

During the fiscal year, the Key Largo Fire Rescue and Emergency Medical Services District revised the budget on one occasion. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget resolution once exact information is available; 2) amendments made to recognize new funding amounts from external sources; and 3) increases in appropriations that become necessary to maintain services.

The significant budget amendment for fiscal year 2009-2010 included an increase in total expenditures for the Fire Rescue Department of \$ 40,000. This increase to the Fire Rescue Department was primarily due to the costs of utility services being greater than anticipated.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The District Board adopted a final millage rate of .7890 for fiscal year 2010-2011. The 2010-2011 adopted final millage rate is 11.18% less than the rolled-back rate of .8883.

The 2010-2011 budget includes funds to purchase a new technical rescue pumper, and a new ambulance. The 2010-2011 budget also includes a freeze on the contributions to the Vehicle and Equipment Replacement Fund.

The adopted budget for 2010-2011 targets an ending fund balance in the General Fund of 6% of operating expenditures, which is down from the adopted budget for 2009-2010 targeted ending fund balance. With the downturn in the economy and the real estate market the District Board decided to utilize reserve funds to balance the adopted 2010-2011 budget rather than increase the millage rate charged to the residents of the unincorporated Key Largo area. The District Board determined that the targeted ending fund balance in the General Fund to be a prudent reserve for unanticipated events such as hurricanes, and if absolutely necessary the Vehicle and Equipment Replacement Fund reserves could be utilized to cover any shortfalls due to unanticipated emergency situations. For the total budget, including the General Fund and the Vehicle and Equipment Replacement Fund, the ending fund balance is 68.61% of total operating expenditures.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of Key Largo Fire Rescue and Emergency Medical Services District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Finance Director, Key Largo Fire Rescue and Emergency Medical Services District, P.O. Box 1023, Key Largo, FL 33037.

**KEY LARGO FIRE RESCUE AND EMERGENCY
MEDICAL SERVICES DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
September 30, 2010**

NOTE 1 - ORGANIZATION AND OPERATIONS

Key Largo Fire Rescue and Emergency Medical Services District (the "District") was established on June 8, 2005 under Chapter 191, Florida Statutes, by the Florida Legislature. The District was created for the purpose of providing fire protection and firefighting services, rescue services and emergency medical services to residents and businesses within District boundaries.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with generally accepted accounting principles as applied to governmental units. The District's more significant accounting policies are described below:

The financial reporting entity:

The criteria used for including component units consists of identification of legally separate organizations for which the Board of Commissioners of the District are financially accountable. This criteria also includes identification of organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting District's basic financial statements to be misleading or incomplete. Based upon this review, there were no potential component units of the District.

FINANCIAL STATEMENTS - GOVERNMENT-WIDE STATEMENTS

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. All of the District's activities are classified as governmental activities.

In the government-wide statement of net assets, the governmental activities column is presented on a consolidated basis, if applicable, and is reported on a full-accrual, economic resource basis, which recognizes all noncurrent assets and receivables as well as all noncurrent debt and obligations, when and if applicable. The effect of any interfund activity has been eliminated from the government-wide financial statements.

The government-wide statement of activities reports both the gross and net cost of each of the District's functions. The net costs, by function, are also supported by general revenues, other revenue, etc. The statement of activities reduces gross expenses by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflect capital-specific grants. For the year ended September 30, 2010, the District had program revenues of \$ 36,709.

This government-wide focus is more on the ability to sustain the District as an entity and the change in the District's net assets resulting from the current year's activities.

FINANCIAL STATEMENTS - FUND FINANCIAL STATEMENTS

The accounts of the District are organized on the basis of funds. The operations of the funds are accounted for with separate self-balancing accounts that comprise their assets, liabilities, fund equity, revenues and expenditures.

KEY LARGO FIRE RESCUE AND EMERGENCY
MEDICAL SERVICES DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
September 30, 2010

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The District reports the following major governmental funds:

General Fund - This fund is used to account for all operating activities of the District. At this time, revenues are primarily derived from ad valorem taxes levied on properties located within District boundaries, grants and interest income.

Vehicle and Equipment Replacement Fund - This fund is used to account for resources that are designated for the purpose of acquiring vehicles and equipment.

Measurement focus, basis of accounting and presentation:

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the basic financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied. Governmental funds use the current financial resources measurement focus and the government-wide statements use the economic resources measurement focus.

Governmental activity in the government-wide financial statements is presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

The governmental fund financial statements are presented on the modified accrual basis of accounting under which revenue is recognized in the accounting period in which it becomes susceptible to accrual (i.e., when it becomes both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within sixty days of the end of the current year.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Budget:

A budget is adopted for the General Fund and Vehicle and Equipment Replacement Fund on an annual basis. Appropriations lapse at fiscal year end. Changes or amendments to the total budgeted expenditures of the District must be approved by the District Board of Commissioners.

The District follows these procedures in establishing budgetary data to be reflected in the basic financial statements:

- a. Each year, the Finance Director, based on input from various District departments, submits to the District Board of Commissioners a proposed operating budget for the fiscal year commencing the following October 1.
- b. Public hearings are conducted to obtain taxpayer comments.
- c. Prior to October 1, the budget is legally adopted by the District Board of Commissioners.

KEY LARGO FIRE RESCUE AND EMERGENCY
MEDICAL SERVICES DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
September 30, 2010

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- d. The budgets are adopted on a basis consistent with generally accepted accounting principles.

Cash and cash equivalents:

Cash and cash equivalents, if applicable, are defined as demand deposits, money market accounts, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments:

Investments, if held, are stated at their fair value, which is based on quoted market prices. Unrealized gains and losses in fair value are recognized. Certain money market investments are stated at amortized cost if they have a remaining maturity of one year or less when purchased. The District investments at September 30, 2010 consist of certificates of deposit.

Capital assets:

Capital assets are reported in the governmental activities column in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$ 1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Depreciation on all capital assets is charged to operations using the straight-line method over the assets' estimated service lives.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Equity classifications:

Government-wide statements

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction or improvement of those assets, if applicable.
- b. Restricted net assets - consists of net assets with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation, if applicable.
- c. Unrestricted net assets - all other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund statements

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Property taxes:

Under Florida law, the assessment of all properties and the collection of all county, municipal, special taxing district and school board property taxes are consolidated in the offices of the County Property Appraiser and County Tax Collector, respectively. All property is reassessed according to its fair market value on January 1 of each year and each assessment roll is submitted to the State Department of Revenue for review to determine if the assessment roll meets all of the appropriate requirements of state law. The maximum rate the District is allowed to assess is 1.0 mills (\$ 1.000 for each \$ 1,000 of assessed valuation).

The tax levy is established by the Board of Commissioners prior to October 1 of each year during the budget process. For the fiscal year ended September 30, 2010 the adopted millage rate is .7768 mills (\$.7768 for each \$ 1,000 of assessed valuation).

Taxes may be paid less a 4% discount in November or at declining discounts each month through the month of February. All unpaid taxes become delinquent on April 1 following the year in which they are assessed. Beginning on or before June 1, the tax collector is required by law to hold a tax certificate sale. The certificates represent liens on all unpaid taxes on real estate properties. The sale allows citizens to buy certificates by paying off the owed tax debt. The sale is conducted in reverse auction style with participants bidding downward on interest rates starting at 18%. The certificate is awarded to the lowest bidder. A tax certificate earns a minimum of 5% interest to the investor until the interest has accrued to greater than 5%, with the exception of "zero" interest bids, which always earn "zero" interest.

Date of management review:

Subsequent events have been evaluated through February 28, 2011, which is the date the financial statements were available to be issued.

NOTE 3 - DEPOSITS AND INVESTMENTS

Deposits:

The District's deposits must be placed with banks and savings and loans which are qualified as public depositories prior to receipt of public monies under Chapter 280, Florida Statutes. These deposits are insured by the FDIC up to \$ 250,000. Monies deposited in amounts greater than the insurance coverage are secured by the banks pledging securities with the State Treasurer in the collateral pool. At year end, the carrying amount of the District's deposits was \$ 1,281,485 and the bank balance was \$ 1,289,459.

Provision for depreciation was charged to functions as follows:

Governmental Activities:	
Public safety	\$ <u>285,736</u>

NOTE 5 - INTERLOCAL AGREEMENT

The District previously entered into an agreement with Monroe County (the "County") related to the transfer of fire and emergency medical services responsibilities from the County to the District. The agreement became effective October 1, 2006. Under the agreement, the District accepts all responsibilities for and agrees to provide within the District all of the duties and responsibilities as defined in 2005 Florida Laws, Chapter 329. Based on the terms of the agreement, the District accepted title to certain property previously held by the County under two long-term lease agreements. Under these agreements, which expire in January 2022 and July 2043, the District retains title to buildings and improvements constructed by the County on land that is owned by the lessor. The agreement which expires in January 2022 contains the option to renew for two additional 30-year periods under the same terms and conditions. Upon expiration of one of the agreements, the District's interest in the buildings and improvements transfers to the lessor. Under the other agreement, the District retains title to and has the right to remove any buildings or improvements located on the leased premises. Additionally, the District has title to certain furniture, equipment and vehicles previously held by the County.

NOTE 6 - COMMITMENTS

The District previously entered into agreements with Key Largo Volunteer Fire Rescue Department (the "Department") and Key Largo Volunteer Ambulance Corps, Inc. (the "Ambulance Corps") to furnish fire protection services and ambulance services. The agreement with the Department is effective through September 30, 2010. The agreement with the Ambulance Corps is effective through September 30, 2010. Both agreements contain provisions under which either party may terminate the agreement. Subsequent to year end, the District entered into three 60 day extensions for the above stated agreements. The extensions expire March 28, 2011, at which time the District anticipates having formal long term agreements in place. The agreements call for payments to be made from the District to the Department and the Ambulance Corps, either in the form of advances, direct payment of expenses or reimbursements. These payments shall be in accordance with the budget appropriations request submitted by the Department and the Ambulance Corps to the District prior to the adoption of the District's annual budget on October 1 of each year. The budget may be amended during the year to reflect increases in actual expenses and to reflect the increase or decrease in the level of services provided to the District due to the occurrence of certain events. Additionally, the agreement contains certain other provisions such as the District, the Department and the Ambulance Corps providing for adequate maintenance of emergency vehicles and for the District to have access to the Department's and the Ambulance Corps' financial records related to expenditures incurred under the agreement.

The District has a commitment to repay Monroe County for electric and water service expenditures paid on behalf of the District. The District has budgeted \$ 76,957 during fiscal year 2011 to fulfill this commitment.

**KEY LARGO FIRE RESCUE AND EMERGENCY
MEDICAL SERVICES DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
September 30, 2010**

NOTE 7 - RISK MANAGEMENT

In accordance with the agreements with the Department and Ambulance Corps (Note 6), the District is required to provide workers' compensation insurance, including \$ 500,000 in employer's liability insurance coverage, on the volunteers of the Department and Ambulance Corps, as required by Florida Statutes Chapter 440. Additionally, the District must maintain general liability and automobile liability insurance with minimum coverage limits of \$ 2,000,000.

**OTHER REPORTS OF
INDEPENDENT AUDITORS**

REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Commissioners
Key Largo Fire Rescue and Emergency Medical Services District
Monroe County, Florida

We have audited the financial statements of the governmental activities and each major fund of Key Largo Fire Rescue and Emergency Medical Services District (the “District”) as of and for the year ended September 30, 2010, which collectively comprise the District’s basic financial statements and have issued our report thereon dated February 28, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the District’s internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing an opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District’s basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Key Largo Fire Rescue and Emergency Medical Services District

This report is intended solely for the information and use of District management, members of the Board of Commissioners, and the Auditor General of the State of Florida, and is not intended to be and should not be used by anyone other than these specified parties.

KEEFE, McCULLOUGH & CO., LLP

Fort Lauderdale, Florida
February 28, 2011

INDEPENDENT AUDITORS' REPORT TO DISTRICT MANAGEMENT

To the Board of Commissioners
Key Largo Fire Rescue and Emergency Medical Services District
Monroe County, Florida

We have audited the basic financial statements of Key Largo Fire Rescue and Emergency Medical Services District (the "District"), as of and for the year ended September 30, 2010, and have issued our report thereon February 28, 2011.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters. Disclosures in that report, which are dated February 28, 2011, should be considered in conjunction with this management letter.

Additionally, our audit was conducted in accordance with the provisions of Chapter 10.550, Rules of the Auditor General, which govern the conduct of local governmental entity audits performed in the State of Florida. This letter includes the following information, which is not included in the aforementioned auditors' reports.

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. The finding and recommendation made in the preceding annual financial audit report has been implemented.

Section 10.554(1)(i)2., Rules of the Auditor General, requires our audit to include a review of the provisions of Section 218.415, Florida Statutes, regarding the investment of public funds. In connection with our audit, we determined that Key Largo Fire Rescue and Emergency Medical Services District complied with Section 218.415, Florida Statutes.

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Section 10.554(1)(i)4., Rules of the Auditor General, requires that we address violations of provisions of contracts or grant agreements, or abuse that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but more than inconsequential. In connection with our audit, we did not have any such findings.

Section 10.554(1)(i)5., Rules of the Auditor General, provides that the auditor may, based on professional judgment, report the following matters that have an inconsequential effect on financial statements, considering both quantitative and qualitative factors: (1) violations of provisions of contracts or grant agreements, fraud, illegal acts, or abuse, and (2) deficiencies in internal control that are not significant deficiencies. In connection with our audit, we did not have any such findings.

Key Largo Fire Rescue and Emergency Medical Services District

Section 10.554(1)(i)6., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. Key Largo Fire Rescue and Emergency Medical Services District was established on June 8, 2005 by Florida Legislature H.B. No. 1291, pursuant to the provisions of Chapter 190, of the laws of the State of Florida. The District does not have any component units.

Section 10.554(1)(i)7.a., Rules of the Auditor General, requires a statement be included as to whether or not the local governmental entity has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Section 10.554(1)(i)7.b., Rules of the Auditor General, requires that we determine whether the annual financial report for the District for the fiscal year ended September 30, 2010, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2010. In connection with our audit, we determined that these two reports were in agreement.

Pursuant to Sections 10.554(1)(i)7.c. and 10.556(7), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Pursuant to Chapter 119, Florida Statutes, this management letter is a public record and its distribution is not limited. Auditing standards generally accepted in the United States of America require us to indicate that this letter is intended solely for the information and use of management, and the Florida Auditor General, and is not intended to be and should not be used by anyone other than these specified parties.
