Subject: Re: KLFR&EMS: FREE NOVEMBER 12th REGIONAL FIREFIGHTER TRAINING PROGRAM
We (district) should make sure that anyone who wants to attend will have transportation costs reimbursed to encourage everyone interested. This way attendees will not be hand picked if they go through the district for registration.

Subject: KLFR&EMS: FREE NOVEMBER 12th REGIONAL FIREFIGHTER TRAINING PROGRAM

Commissioners, District Staff and Department Staff,

Commissioner Tharp asked me to share this FREE Training Session with you. It also include EVOC training.

Regards,

Vicky Fay
KLFR&EMS District

FREE! Training. Four one day classes. If the students drive up the morning of the class and return home that evening, there are no lodging costs. The sponsor is providing coffee and donuts in the morning and a free lunch, With carpooling, the costs to the District would be absolutely minimal. All four classes pertain to the fire dept. and the EVOC class also pertains to the Amb Corp.

2011 REGIONAL FIREFIGHTER TRAINING PROGRAM

November 12, 2011

Plantation Fire Department
550 NW 65 Avenue
Plantation, FL 33317
954.797.2150

9/28/2011

SPONSORSHIPS

The classes and instructors will be approved by the Florida State Fire College. Each of the 4 training classes will be limited to 20 registrants per class. Registrants will only be able to attend 1 class along with the mandatory rehab class.

This training is open to all volunteer & career firefighters.

*Under no circumstances will classes be cut short to meet this schedule. All instructors will attempt to meet this time schedule, but if necessary, classes will be extended.

CLASSES

WUI - Wildland Urban Interface (Updates & Refresher)

This class will give you a quick update and overview of how to protect structures in your wildland interface. We will have a classroom session and then travel out to the wildland/urban interface to see firsthand the problems with triaging structures for protecting and which ones can be saved and which ones cannot be saved.

No PPE Required

Richard Darby, Instructor

Building Construction & Ventilation

This class will cover Residential Construction and Fire Loading from 1920 through 2011. (Commercial Construction, New Hotel & Motel Construction, Fast Food & Chain Restaurant Construction, Legacy Construction versus Engineered Lumber, Why firefighters are dying today, LODD in lightweight residential, the U.L. study of lightweight versus conventional, Impact of ventilation on fire behavior in legacy & contemporary residential construction, the importance of Pre-Planning Buildings). Practical session will deal with working with ground ladders, and teaching proper ventilation methods for Residential and Commercial Structures.

Mac McGarry, Elkhart Brass, Instructor

PPE Needed: Structural PPE without SCBA**SCBA**

SCBA and how to use them and how to conduct wide area searches. Learn how to conserve air while doing wide searches and learn what to do when you have problems while using your SCBA. Learn proper inspections and demonstrate how to correct potential problems that might be encountered during use of your SCBA. Air consumption drill and how to maximize your air supply. The practical will consist of students demonstrating proper maintenance and inspection of an SCBA.

Tim Diamond, Instructor

PPE Needed: Structural PPE to include SCBA with Mask & Spare Bottle**EVOC, Courage to be Safe, Seat Belt Pledge**

Courage to be safe: Do you have the courage to be safe? Do you want to learn how you can have everyone on your shift go home safe at the end of the shift? This class will teach you "how to be safe if you have the courage". This is done through 16 life safety initiatives covering all areas of a fire fighters life, work, home and socially. Does your family deserve the right for your safe return home? This is a National Fallen Firefighters Foundation Program.

Following the lunch break: Down and dirty EVOC course going over driving apparatus and how we are exposed to the danger of driving every time we respond or return.

Stan Mettinger, Brooksville Fire Department, Instructor

4 CEUs - Instructor**No PPE Required**

*Each student will be required to go through **re-hab done right**, giving them the knowledge to insure re-hab is done on all of our scenes and done properly.
