PREFERRED CLAIMS ADMINISTRATION

Preferred Governmental Claim Solutions, Inc. ® (PGCS) is the premier governmental third party claims administrator in the state of Florida and also administers the claims for Preferred Governmental Insurance Trust (*Preferred*). Since its founding in 1956, PGCS has provided claims administration services exclusively to over 450 governmental entities including schools, cities, towns, counties, community development districts, and fire districts. Therefore, PGCS's adjusters are extremely qualified to handle governmental tort liability and public sector workers' compensation claims. They are experts at investigating and handling police and firefighters presumption claims. PGCS is sensitive to the politics involved in the handling of public entity claims.

PGCS's claims administration program consists of workers' compensation, general liability, bodily injury, personal injury, property, auto liability, auto physical damage, employment practices liability, school leaders/educators liability and public officials liability. Their claims staff has over 630 years of combined insurance experience and each has been with PGCS an average of 8 years. Claims are handled under strict supervision in accordance with the PGCS workers' compensation and liability claim handling procedure manuals and the PGCS claim best practices manual. A random sampling of each adjuster's claim files are audited on a monthly basis by a Quality Assurance Manager to ensure compliance.

PGCS provides their clients with a dedicated Subrogation Unit to pursue reimbursements from at-fault third parties. Their current recovery rate is fifty-nine (59) percent of the claim costs expended. PGCS also has a dedicated excess reporting and recovery unit for communication to and securing reimbursement from the excess and/or reinsurance carriers. In addition, PGCS provides a state-approved Special Investigation Unit (SIU) to prevent and pursue fraudulent claims. PGCS offers rewards up to \$10,000.00 for the arrest and conviction of persons committing workers' compensation fraud. This service is provided via a twenty-four hour seven day a week hotline.

PGCS utilizes the RiskMaster system for claims processing. This system captures a wide variety of data, and allows the adjuster to enter an unlimited number of claim notes, process reserve changes, and issue claim payments. Customized reports can be obtained from PGCS's on-line system containing a multitude of data parameters that a client may choose to analyze. The system can be accessed by clients via their website at www.pgcs-tpa.com.

Communication with PGCS's clients is the cornerstone of their claims administration program. Professional adjusters, nurses, management, quarterly in-depth claim review meetings, 24/7 claim reporting, utilization of attorneys specializing in public entity defense, litigation management, and return to work programs are just a sample of how PGCS has set the standard for the industry.

PGCS is committed to partnering with their clients to provide professional and aggressive claim management programs. While they are recognized as the leader in the industry, PGCS is always striving to improve the quality of their programs and expand the services that they offer.

PREFERRED SAFETY AND RISK MANAGEMENT SERVICES

The success of any public sector community is clearly tied to its ability to protect and preserve its human physical assets. This basic premise serves as the cornerstone of an effective Safety Management program and underscores the importance of Risk Control to the community. *Preferred's* Safety and Risk Management Department is very aware of the valuable contribution a comprehensive risk control program makes to the bottom-line of any organization.

At *Preferred*, Safety consultations originate with one basic thought—Specific measures can be recommended to minimize or eliminate the exposures that cause accidents. This does not mean that the workplace become no-risk utopias, but we expect our consultants to recommend measures to control/minimize all types of accidents, injuries and illnesses to our *Preferred* clients' operations and premises.

Stressing our problem solving skills... *Preferred* is dedicated to meeting the challenge of the complex problems facing public sector organizations...disarming these problems and converting them into factors, which work to the advantage of our clients. Our emphasis approach to risk control incorporates the following elements:

- **Exposure Identification** – Assist management in determining areas where a chance of loss might exist.
- **Exposure Measurement and Analysis** – Loss analysis and a review of the consequences of the exposures will be considered to develop alternative methods of control.
- **Determination and Selection of Appropriate Risk Control Methods** – Based on measurement and analysis and after considering alternative approaches, specific recommendations and/or a custom design Risk Control plan will be formulated.
- **Training and Safety Management Consulting** – After considering client needs specific training will be formulated and initiated to fit that need. Key personnel will be provided with the basic knowledge and skills they need to meet those identified needs. Program monitoring is accomplished through follow-up surveys with adjustments to the action plan made as needed. Specialty consulting services are available if necessary.

Preferred's Safety and Risk Management Department evaluates the unique needs to each client, ultimately designing a program that is capable of being integrated into the overall risk control efforts of each client. Our management system's direction to the problem solving approach is the foundation of our Safety and Risk Management Service.
